

**REF: PPR/17 - 9/1**

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE  
WEDNESDAY, THE 6<sup>th</sup> OF SEPTEMBER 2017**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes Cap Prices for petroleum products, applicable in Tanzania Mainland. These retail and wholesale prices are applicable effective **Wednesday, the 6<sup>th</sup> of September 2017**. Hereinafter, kindly, take note of the following:

- (a) Retail and wholesale prices for all petroleum products have changed compared to prices that were published on 2<sup>nd</sup> August 2017. For the month of September 2017, retail prices of Petrol and Diesel have increased by TZS 10/litre (equivalent to 0.53%) and TZS 57/litre (equivalent to 3.10%) respectively, while retail prices of Kerosene have decreased by TZS 19/litre (equivalent to 1.04%). Similarly, compared to the last month publications, wholesale prices of Petrol and Diesel have also increased by TZS 10.41/litre (equivalent to 0.56%) and TZS 56.74/litre (equivalent to 3.30%) respectively, while wholesale prices of Kerosene have decreased by TZS 19.01/litre (equivalent to 1.11%). The increases in Petrol and Diesel local pump prices have been caused by increases in the world oil market prices and BPS premiums while the decrease in Kerosene prices is mainly due to a decrease in BPS premiums despite an increase in the world oil market prices.
- (b) Retail and wholesale prices for all petroleum products in Tanga region have also changed compared to prices that were published on 2<sup>nd</sup> August 2017. Retail prices of Petrol have decreased by TZS 13/litre (equivalent to 0.65%) while retail prices of Diesel and Kerosene have increased by TZS 14/litre (equivalent to 0.78%) and TZS 106/litre (equivalent to 6.21%) respectively. Likewise, wholesale prices for Petrol have decreased by TZS 12.98/litre (equivalent to 0.69%) while wholesale prices for Diesel and Kerosene have increased by TZS 14.47/litre (equivalent to 0.83%) and TZS 105.88/litre (equivalent to 6.65%) respectively. The changes in prices of petroleum products in Tanga region have been caused by changes in the world oil market prices and BPS premiums. It should further be noted that, in Tanga Region, the last new Kerosene consignment was received in September 2016 while the last new consignment of Petrol and Diesel was received in June 2017.
- (c) The Authority would like to remind the public that these cap prices can be accessed through mobile phones by dialling **\*152\*00#** and then following the provided instructions. This service is free of charge and is available in all mobile phone service providers in the country.
- (d) In line with the prevailing sector legislation (**Petroleum Act, 2015, section 166**), prices of petroleum products are governed by rules of demand and supply. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including cap prices. This information on prices is intended to enable stakeholders make informed decisions on petroleum prices at any particular time.

- (e) Oil Marketing Companies are free to sell their products at a price that gives them a competitive advantage provided that, such **price does not exceed the price cap for the relevant product as was computed using the approved formula, which was gazetted through the Government Notice No. 216 published in May 2017.**
- (f) All petrol stations are required to publish petroleum product prices on clearly visible boards. The price boards should be clearly visible and should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations and it will attract punitive measures from EWURA.**
- (g) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) with respect to all sales that they make and consumers are required to **demand and keep those receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold do not meet the approved specifications and also, provide an assurance that appropriate government taxes on petroleum products purchased are fully accounted for recovery from the Retailers.

#### **A: RETAIL PRICES**
